

L'AIR Professional Ballet Barre

for art centers, studios and schools

Designed especially for ballet schools, art centers, dance studios, yoga and fitness studios - **L'AIR Professional Ballet Barres** are manufactured in the USA and meticulously finished to assure years of safe, trouble-free service. As with all L'AIR products, our ballet barre products are constructed from the highest quality materials available.

Floor mounted ballet barres are fully modular, utilize the same space as wall mounted models, and can be installed in front of windows and mirrors. Both floor mounted models are easily and quickly installed onto concrete or wood substrates. Wall mounted ballet barres are also modular and offer the same ease of installation.

FEATURES INCLUDE:

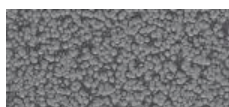

- Single, double and wall mounted units
- 2" x 1.5" tubular welded steel
- Top bar = 42.25" from the floor
- 1.5" diameter steel bars
