

Excele III

SPRUNG FLOOR SYSTEM

for studios

Excele III sprung flooring systems represents a major advancement in engineered, pre-fabricated sprung flooring. Excele III for commercial or residential studios features a premium 3/4" plywood structural panel comprised of specialized, non-toxic, water-resistant glues and void-free construction. Excele III has excellent strength and durability and provides the light, lively feel of plywood. Installed suspension materials are a unique blend of closed-cell sponge of varying durometer and synthetics that perfectly match the "flex" of the panel and assure years of trouble-free service and progressive suspension upon demand. Excele III installs quick and easy onto your existing substrate and is recommended for use with L'AIR Professional DanceVinyl or hardwood as the performance surface.

FEATURES INCLUDE:

- 47-5/8" wide x 47-5/8" long
- Safe low profile of 1-3/8"
