

Excele

SPRUNG FLOOR SYSTEM
for studios and theatres

— THE —
ORIGINAL
ENGINEERED SUSPENDED FLOORING

L'AIR's original **Excele** sprung flooring systems have often been copied but never equaled. Delivered as prefabricated modules, Excele is specially designed for temporary installations in **studios or light usage theatres**, in the case where a location may change. Expansion of Excele flooring systems can be easily accommodated by adding additional modules or relocated and easily reinstalled. Excele is manufactured with unique, proprietary, void-free, laminate plywood that is greatly superior to other solid core alternative copies throughout the industry. Suspension materials are a unique blend of closed-cell sponge of varying durometer and synthetics that assure years of trouble-free service. Excele is recommended for use with L'AIR professional DanceVinyl as the performance surface.

FEATURES INCLUDE:

- Dimensions: 47-½" wide x 95" long
- Safe low profile of 1-3/8"
- Ergonomically designed for dance and theatre applications
